

LIGHTPAD EVOLUTION

The new Benchmark

LIGHTPAD EVOLUTION

The upgrade for your workplace

It is unmistakably the **LIGHTPAD**. New in an even slimmer and more beautiful design, with even better light quality with color rendering index higher 90, even more flexible with even more variants for even more table arrangements and even more individual, convenient and quicker configurable with smart-phone or tablet thanks to the **Flash MyLight** web app.

The new benchmark.

Its simple design with clean, elegant lines makes **LIGHTPAD** a timeless classic in office lighting. The slim freestanding luminaire fits unobtrusively and flexibly into any interior. **LIGHTPAD** is available as a single, double, triple and quad head version in various arrangements and easily illuminates up to four workstations simultaneously.

Flash MyLight

Simple, individual luminaire Configuration via Flash MyLight browser application on mobile phone, tablet or laptop.

SENSODIM®

Intelligent daylight management with presence detection to save electricity.

CRI90

Even better colour rendering and increased energy efficiency.

ALONEatWORK®

Makes luminaires in the environment light up slightly dimmed so that working alone does not feel lonely.

MyData Analysis (MDA)

Luminaire infrastructure as a data source: Our smart building system offers new possibilities for building management and helps to optimise space utilisation and operating costs in your company.

Asymmetric light distribution

The innovative lighting technology distributes the light asymmetrically so that the entire work surface is evenly illuminated.

LED signage

With MDA applications, the LED display indicates whether a seat is free, reserved or occupied.
