PEOPLE LIGHT OUR WAY

JOKER

The revolutionary table luminaire

JOKER lets your workplace shine in your personal light. This flexible table lamp not only produces the best office-quality light, but can also be easily placed on the desk and moved around.

Moreover, **JOKER** fully adapts to your personal needs with individually adjustable lighting mood. Create your micro-atmosphere at the touch of a button.

Innovative optics

Thanks to its innovative lighting technology with asymmetrical light distribution for maximum visual comfort, **JOKER** guarantees targeted and at the same time personalised lighting of the workplace. Without glare and without multiple shadows.

Personalised light

The integrated Tunable White technology enables individual control of the colour temperature, creating personalised lighting scenes according to the user's needs.

Slim and compact design

Clean lines and modern design create a visual and aesthetic highlight on any desk. Thanks to its small footprint, **JOKER** also takes up hardly any space.
