PEOPLE LIGHT OUR WAY

COAX

Simply put, perfect.

COAX combines elegance with first-class design, high-quality workmanship and outstandingly efficient lighting technology.

The 360° ambient light body of the **COAX**, designed by **Licht Kunst Licht**, is stunning in its simplicity and elegance. The concept of the double shell creates slight reflections on the clear surface, which set a high-quality highlight in the room and create unique lighting moods.

COAX simply everywhere

With its elegant shape and glare-free light, the light, the **COAX** is versatile and flexible. Classrooms, meeting rooms, offices, reception rooms, cafeterias, entrance areas, corridors, hotels, reception areas and circulation zones.

Elegant optics

COAX is available as a Tunable White version with a stepless change between warm white and cool white light.

Room-radiating light

With its diffuse illumination and perfect glare control, **COAX** provides outstanding quality of illumination for standard-compliant office lighting.

Product range

COAX is available in two sizes, with colour temperatures of 3000K, 4000K and Tunable White*, and as a surface-mounted and pendant luminaire with direct and indirect light components.
